Lecture 25 New Worlds

New World
- Beringia
- 12,000 YA
- 30,000 YA?
- Folsom & Colvis projectile points

Late Pleistocene America
- 75,000 - 10,000 YA
Pre-Clovis Sites?

Other Evidence
- Languages
  - Amerind
  - Na-Dene
  - Aleut-Eskimo
- Mt-DNA
- Y chromosome
- Skeletal

Megafauna Extinctions
- Clovis Hunters
Greater Australia

- Sunda/Sahul
- Wallacea
- Makakunanja
- Jinmium

Earliest Fossils in Australia

- Lake Mungo (25k–30k/?60k)
- Kow Swamp (12,000 ya)
- Willandra Lakes (15,000 YA)

Extinctions

Prehistoric giants
the megafauna
of Australia
Neolithic: Plant & Animal Domestication

The First Villagers
Sedentism and social complexity a consequence of the adoption of agriculture? Agriculture a consequence of social complexity?

Causes
Population pressure
Climate change
Social factors
Consequences of Agriculture

Hunting & Gathering

Agriculturalists
